ITTSBURG, Oct. 8.—The Pittsburg champions of the National League defeated Detroit, the American League, pennant winners, in the opening game for the world's championship on Forbes Field, 4 to 1. AN RAFAEL, October 8.— Broken by a night's confinement in a cell still spettered with the blood of a recent suicide, Mrs. William R. Hayner, the woman who is facing a charge of bigams at the hands of two men who assert she has played on their wild infatuation for her to gain money

and jewels far in advance of their means, by way of the marriage altar, became almost hysterical at the San Rafael county jail this morning, and confessing her own guilt, implicated Edmund Thiel, her second husband, in the plot, by a sensational assertion that he knew of and influenced her to commit the crime. Mrs. Hayner was brought here

from Oakland, where she was arrested yesterday morning on a warrant sworn out by Thiel, who married her before Justice of the Peace McGee of San Rafael on June 1 of this year, while she was still the lawful wife of William R. INDIANAPOLIS, Oct.. 8.—A subpoense for frving Santer, of Washington, to appear here bext Monday as a witness in the hearing of Delayers Smith and Chas. R. Williams, proprietors of the Indianapolis News, charged with having committed criminal libel in the Panama Canal purchase controversy, will be served in Washington today or tomorrow.

Chas. W. Miller. United States Attorney for this district, said today that he did not know who Santer was and that he had mailed a subpoena at the request of Stuart McNamara, special attorney of the Department of Justice in charge of the Department of Justice in charge of the proceedings against the publishers of the Indianapolis News and similar proceedings in New York City against the publishers of the New York World. Miller said that so far as he was advised, Santer, or Sauter, was the only witness that would be subpoenaed. He had not bee informed that William Nelson Cromwell, Frank H. Hitchcock or representatives of the banking house of J. P. Morgan & Company land arranged with the Department of Justice to come to Indianapolis to testify without the formality of a subpoena.

Menamera had stated to Judge Anderson of the United Court that he probably would ask Hitchcock, Norman E. Mack, chairman of the Democratic and National convention, and others to testify in the Panama Canal matter.

#### Strike a Match— Water Is Heated Instantaneously

HOW TO HAVE UNLIMITED SUPPLY OF HOT WATER DAY AND NIGHT, FOR FEW CENTS A DAY.

FOR FEW CENTS A DAY.

A water heater that heats instantaneously all the water you can possibly use or want, any time in the 24 hours, even in the middle of the night when every fire in the house is out; a water heater that uses gas only while the hot water is actually running out of the faucet; that gives you water steeming hot and not merely luke-warm; that uses one-third the gas you now use in your kitchen boiler; that heats water only as fast as you use it, and that would keep pouring out hot water from now till doomsday if you would let it—this is what no kitchen boiler or sany other water-heating system could ever do or ever has done, but what is now done by that marvel of ingenuity, comfort, convenience and economy—the Humphrey Instantaneous Eath-Heater.

that marvel of ingenuity, comfort, convenience and economy—the Humphrey Instantaneous Eath-Heater.

For instance, you place one of these heaters in your bath-room. Three people in your house want to take a bath within two hours' time, With a kitchen boiler to rely on, it couldn't be done. You couldn't heat the water quick enough in the first place. But with this "Humphrey instantaneous" bather No. 1 goes in the bathroom, strikes a match, lights the gas under the heater, turns on the water. Quicker than it takes to walk five steps the hot water pours out full force, piping hot, as long as the faucet is turned on. By turning off the water you turn off the gas and the water ceases to be heated. Your expense stops.

When bather No. 2 is ready, the same simple "motions" are made, and steaming hot water flows from the pipe as though it had been heated for hours.

The "Humphrey Instantaneous Bath Heater" does not store water but lieats it.

Your kitchen boiler stores water, which is its greatest disadvantage. Its supply of water is always limited, its water is

is its greatest disadvantage. Its supply of water is always limited, its water is never hot when most needed, it requires is its greatest disadvantage. Its supply of water is always limited its water is never hot when most needed, it requires more gas than ought to be necessary, it never supplies water for more than one bath, and it takes an age to heat more water for another bather. Resides, in the kitchen boiler you always have to heat more water than you use and have to wait a long while before it gets sufficiently hot. This is an expensive waste of gas, loss of time and an inconvenience, and the water you get is usually loke warm after all.

With the "Humphray Instintaneous" you have hot water instantly for any purpose, even in the middle of the night, when every fire in the house is out, just as quick as it takes you to stake a match. The supply of hot water never ends, unless you shut it off yourself.

With the "Humphray Instantaneous" you get the cheapest hot water in the world. A family of five uses on an average of 60 gallons of hot water a day. With gas costing \$1.00 for 1000 cubic feet, it costs 20c a day to heat these 60 gallons with your kitchen holler. The "Humphray Instantaneous" heats these 60 gallons for only 6 cents a day.

'I is a perfect heater for summer as well as winter use. The heater is so constructed that only the water is heated. There is no radiation of heat in the room. Send for our free heautiful book of illustrations and full explanations of the Humphrey Instantaneous Bath Heaters, by sending your name and address today to The Humphrey Co., Dept. 1, Kalamazoo, Michigan.

The salesman will begin at, say, \$400, and before he lets you go will descend the scale of "Special Inducements" or 'Exceptional Concessions" to \$215.

Of course, if you are wise, you then know that the piano was never intended to be sold for \$400, but those ignorant of these shallow tricks believe they have secured a \$400 piano for \$215. The next customer-more reluctant to part with his

#### The Fickert-Heney Recount.

Despite the desperate expedients resorted to by Heney's attorneys to prevent it, a recount of the Democratic ballots cast at the recent primary election in San Francisco has been ordered. All the legal tricks and technical obstructions inter- Growth of Good Roads posed to prevent an exposure of the frauds by which Heney was given the Democratic nomination have failed, although Judge Murasky was recount.

But Heney's attorneys have not yet exhausted their resources. A recount has been ordered, nevertheless they will interpose fresh obstacles to opening the ballots. Matt I. Sullivan, representing Heney, gave notice of continued resistance to a recanvass of the vote when he charged that the ballots had been tampered with since the canvass made by the election officers. Yet the ballots have been continuously in charge of appointees of the present city administration, all of whom are henchmen of the Spreckels-Phelan machine and supporters of Heney. As a last resort, Sullivan now charges the friends of Heney with fraud in behalf of his opponent. No stronger moral evidence could be presented that Heney dreads the unsavory exposure that will result from a recount of the ballots. Hency is standing in a pitiful attitude for a candidate who claims to be an exponent of political purity and moral issues, clinging to a nominafully counted in being tested prior to printing the official ballots.

As the matter is in this posture it is worth On the face of the returns Hency has a majority of 88 votes on the Democratic ballot over Fickert. who defeated Heney for the Republican and Union by affidavits that this apparent majority was manufactured by fraud in the count and that Ficker! 42 votes over Heney. These affiants number over 100-more than enough to overture the scanty majority returned for Hency. One precinct 36 Democratic votes cast for Fickert were not counted. Numerous other evidences are cited

Yet Hency is fighting a recount before a judge partial to him by every device known to the legal their character.

#### · Naturalization Problems.

When Congress revised the naturalization laws it was hoped that the whole system had been so simplified that there would be no trouble hereafter; that fraudulent naturalizations would cease, and that the definition of what constituted the qualifications of a foreigner to acquire citizenship would be relieved of all doubt and embarrassment. Frauds in naturalization have apparently been stopped effectively, which has been a material gain; but the doubts growing out of the Sawyer decision that the yellow and the brown men of Asia of Mongolian parentage and descent were shut out, because they were neither white nor black of African descent, as provided in the act of Congress, have multiplied in recent times. The color line is being drawn against nearly all Asiatics. Japanese, Chinese, Hindoos, Persians and Armenians, and even the Turks have been brought under the ban.

The right of a Turk who sought recently to be come naturalized has been confested by the Federal attorneys at Cincinnati the ground that he must make a showing ... c is a white man under the meaning of the nateralization laws.

A Hindoo chicken fancier residing at Santa Rosa has applied for American citizenship and his application will be heard in the Federal Court in San Francisco this month.

The application of a Turk desirous of acquiring citizenship in Los Angeles has been contested on the ground that the Turks are of Mongolian extraction; and an Armenian at Fresno, who has sought to be admitted to citizenship on the ground that he is a white person, not born a Turk, but a member of a Christian nation, and that his allegisance to the Ottoman empire had been given unwillingly, is under challenge and his case will not be decided until December. Los Angeles has incurred a \$3,000,-000 bonded indebtedness for the improvement of the county roads. San Diego county has begun to expend about \$1,500,000 on the development of a perfect network of good macadamized roads throughout the county. For more than four hours, shortly after daylight, the combined fire departments of the city fought the fire and rescued people who lived in the apartment building. Because of the rapidity with which the flames spread through the building, which was a big frame structure, the work of rescue was doubly hazardous. Despite this fact the firemen made every effort possible to get those inside to a place of safety.

The fire, believed to have been started by two negroes who are under arrest, caught the occupants of the building as they slept. The negroes held by the uplice are believed to have set the apartment on fire because they had been discharged. They are held prisoners in the county jail under a strong guard and it is feared a lynching may follow should any evidence be discovered showing their sulf.

Shortly afterwards on September 21, he took the first step in the fulfillment of this pledge by filing in the probate court an inventory in the George Hite Cook estate, in which he included among the assets the \$10,000 De Lancey is alleged to have stolen. This was the first and only inventory to be recorded in the estate and hy it Gray acknowledges the deficit and makes himself and his bondsmen responsible for it. It was given out at the time that the shortage had been made good by Gray in actual cash, but it now transpires that such was not the case. However, the acknowledgment of the obligation shows Gray's intention to make good before the estate, which is still in course of administration, is finally wound up by the probate court.

"We are going ahead again at high speed, and from my observations and conversations with leading business men and bankers in Chicago and New York I believe we are setting in on an era of prosperity that has no equal in the history of the country.

"While in Chicago," he continued, "I was fortunate enough to stop at the Autorium Annex, one of the big hotels there, when the American Bankers were holding their national convention under the same roof I made the acquaintance of many of those who had come from all sections of the country and they all voiced the same optimistic opinion—that duil times were over that dull times were over

Superintendent of Schools Elia Flagg Young, who issued yesterday a formal announcement of the "Housekeeping Courses," believes that they will be a potent factor in checking the rapidly increasing number of Chicago divorces.

"If wives had a "more intimate knowledge of the household arts," she said, "there would be more happiness in the hame. This, of course, should be self-evident, but with the present transencies in woman's development, it is a fact that one is very liable to lose aight of."

As fast as articles are sold they will be carried off the floor if not too large, otherwise they will be tagged "Sold"

We have already started to mark some of these goods and it may be of interest to know that chairs will be sold for as low as 50c each. that tables are marked from \$1.00 up, and that pots and pans and dishes will be ofiered at such ridiculously low prices that 's almost a joke.

### Remember This

Everything offered at this sale has been used to furnish the "Gough Apartments," corner Gough and O'Farrell streets, S. F., and some pieces are a little scratched. Nothing, however, is worn to any extent, and most of the furniture looks as if it were never used. However, we don't want anyone to attend this sale with the idea that the goods are absolutely new. If they were we wouldn't be able to sell them at these prices.

PITTSBURG, Pa., Oct. & ....Billy Papke and Willie Lewis ended their training yesterday and now await the gong that will send them on the six-round journey at Duquesne Garden tonight. There will be a large number of young, promising players, chock full of ambition in the State League, and it is ambition in the State League, and it is these men who also will help to make it a success. The spectators like to see a player hustling to win. A budding youngster is always on his tip-toes for he knows that if he jets off good he'll get a trial in the big kagues — the objective goal of all aspirint players.

WATSONVILLE, Oct. 3.—Richard P. Quinn, ex-Mayor of Watsonville, one of the leading real estate brokers in this section, and who until recently maintained officers in San Francisco, was today siven a preliminary hearing before Justice of the Peace A.
